Earth Renewable Dishwashing Liquid

Compilation Date: 1 January 2006

Issue Date: 28 June 2022 Revision No: 3.2

Page 1

## 1. Chemical Product and Company Identification

Product Name Earth Renewable Dishwashing Liquid
Other Means of None

Identification
Product Code

4x750ml: 05-305

Product Code 4x730iii. 03-300

Product Use Super concentrated hand dishwashing liquid

Supplier Solo Pak Pty Ltd 29 076 652 269

Mail Address PO Box 67, Brisbane Markets QLD, 4106

Email sales@solopak.com.au

**Telephone:** 1300 307 755

**Emergency** Poisons Information Centre (National) 131126

Telephone:

### 2. Hazards Identification

Classification of the substance or mixture

HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the WHS Regulations and the ADG Code.

In ready to use form, when diluted with water, at or more than 1:10 (≤100ml/l) the diluted product is classified as non-hazardous. Recommended dilution is 1:100.

Poisons Schedule None

GHS Classification | Skin corrosion/irritation(Category 2)

Serious eye damage/eye irritation (Category 2A)

**GHS Label Elements** 

**SIGNAL WORD** 

Hazard Statement(s)

H316 Causes mild skin irritation
H319 Causes serious eye irritation.

Prevention(s)

P280 Wear protective gloves/protective clothing/eye protection/face

protection

P260 Wash exposed skin thoroughly after handling

P270 Do not eat, drink or smoke when using this product.

Page 1 of 7 ER Dishwashing liquid SDS Version 3.2 Created 28 June 2022

Earth Renewable Dishwashing Liquid

Read the SDS before using this product.

#### Response

P330 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting P362 Take off contaminated clothing and wash before reuse. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsina. P337+P313 If eye irritation persists: Get medical advice / attention. **IF ON SKIN:** Wash with plenty of soap and water. P302+P352 P301+P312 Call POISON CENTER or doctor if you feel unwell. P332+P313 If skin irritation occurs, get medical advice/attention.

Storage

Not applicable

Disposal

P501 Dispose of contents/container in accordance with

local/regional/national/international regulations.

## 3. Composition/Information on Ingredients

(Listed when present at 1% or greater, carcinogens at 0.1% or greater)

Chemical Name	CAS Registry Number	% Weight	Hazard Information
Polyoxyethylene C12C14 acid methyl ester	Proprietary	15-30	H303: May be harmful if swallowed. H316: Causes mild skin irritation. H319: Causes serious eye irritation.
Propylene glycol	57-55-6	5-15	None
Cocamidopropyl betaine	61789-40-0	5-15	H315 Causes skin irritation. H319 Causes serious eye irritation
Cocoamide MEA	68140-001	15-30	H315: Skin Irritation Category 2 H320: Causes eye irritation.
2-methyl-4- isothiazolin-3-one (MIT) and 1,2-benzisothiazolin - 3-one (BIT)	Compound	<1	H317 May cause an allergic skin reaction H318 Causes serious eye damage. H412 Harmful to aquatic life with long lasting effects.
Lemon ginger fragrance	Compound	<5	H227: Combustible liquid H315: Causes skin irritation H319: Causes serious eye irritation H335: May cause respiratory irritation
Green SP Dye	Compound	<1	None

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equaled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak "is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Eyes

Earth Renewable Dishwashing Liquid

#### 4. First Aid Measures

General For advice, contact a Poisons Information Centre (Australia

13 11 26) or a doctor. If swallowed, do NOT induce

vomiting. Immediately give a glass of water.

Inhalation If fumes, aerosols or combustion products are inhaled

remove from contaminated area. Other measures are

usually unnecessary.

Skin: If skin contact occurs:

Immediately remove all contaminated clothing, including

footwear.

Flush skin and hair with running water (and soap if

available).

Seek medical attention in event of irritation.

If this product comes in contact with the eyes:

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by

occasionally

lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or

recurs seek medical attention.

Removal of contact lenses after an eye injury should only be

undertaken by skilled personnel.

Ingestion: If swallowed do NOT induce vomiting.

If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway

and

prevent aspiration.

Observe the patient carefully.

Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give water to rinse out mouth, then provide liquid slowly and

as much as casualty can comfortably drink.

Seek medical advice.

Symptoms Caused by Prolonged skin contact may result in dermatitis or reddening

of the skin.

Indication of any immediate medical attention and special treatment needed Treat symptomatically.

# 5. Fire Fighting Measures

there are no restrictions on the type of extinguishing media which may be used. Choice of extinguishing media should take into

account surrounding areas.

Though the material is non-combustible, evaporation of water from the mixture, caused by the heat of nearby fire, may produce floating layers of combustible substances.

In such an event consider: foam.

Fire Fighting Alert Fire Brigade and tell them location and nature of hazard.

Page 3 of 7 ER Dishwashing Liquid SDS Version 3.2 Created 28 June 2022

Earth Renewable Dishwashing Liquid

Wear breathing apparatus plus protective gloves in the event of a fire. Prevent, by any means available, spillage from entering drains or water courses.

Use fire fighting procedures suitable for surrounding area.

Fire and Explosion Hazards

Non combustible.

Not considered to be a significant fire risk.

Expansion or decomposition on heating may lead to violent rupture

of containers.

Decomposes on heating and may produce toxic fumes of carbon

monoxide (CO).

Decomposes on heating and produces toxic fumes of:, carbon dioxide (CO2), hydrogen chloride, phosgene, nitrogen oxides (NOx), other pyrolysis products typical of burning organic material

### 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Minor Spills

Clean up all spills immediately.

Avoid breathing vapours and contact with skin and eyes.

Control personal contact with the substance, by using protective

equipment.

Contain and absorb spill with sand, earth, inert material or

vermiculite.

Slippery when spilt.

Major Spills Moderate hazard.

Clear area of personnel and move upwind.

Alert Fire Brigade and tell them location and nature of hazard.

Wear breathing apparatus plus protective gloves.

Slippery when spilt.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

# 7. Precautions for handling and storage

Precautions for safe handling

Precautions for Safe

Handling

Limit all unnecessary personal contact.

Wear protective clothing when risk of exposure occurs.

Use in a well-ventilated area.

Avoid contact with incompatible materials.

DO NOT allow clothing wet with material to stay in contact with skin

Other Information Store in original containers.

Keep containers securely sealed. Store in a cool, dry, well-ventilated area.

Store away from incompatible materials and foodstuff containers.

Conditions for safe storage, including any incompatibilities

Suitable containers Lined metal can, lined metal pail/ can.

Plastic pail. Polyliner drum.

Packing as recommended by manufacturer.

Storage None known

Incompatibility

## Exposure controls /personal protection

National Exposure

Standards

**Engineering Controls** 

An exposure standard has not been established for this product.

Use in well-ventilated area

**Personal Protection** 

Eyes/Face

Safety glasses

Hands Skin

Rubber gloves. Avoid skin contact. Not generally required when used as per label directions. Avoid skin

contact.

Respiratory

Not generally required when used as per label directions. Avoid

inhaling spray mist.

## 9. Physical and chemical properties

Physical Description &

colour:

Lemon fragrance

Approximately 100°C at 100kPa.

Lower than 0° C. 10% Water. No data. No data.

1.02 Completely soluble in water.

6.5-7.5 No data. No data. No data No data

# 10. Stability and Reactivity

Chemical Stability

Possibility of Hazardous

Reaction

Conditions to Avoid

Incompatible Materials

Hazardous

Decomposition Products

The product is stable under normal conditions

None known

Extreme heat and temperatures

Strong oxidizing agents

None known

# 11. Toxicological information

**Toxicology Information** 

Inhalation

No toxicity information is available for this product.

Aspiration (breathing in) of liquid spray or mist liable to cause

Earth Renewable Dishwashing Liquid

severe irritation and damage to respiratory tract.

Ingestion No Data

Skin Will have a degreasing effect on the skin which may lead to

irritation on prolonged contact with the concentrate.

Eye Irritant.

Chronic Effects Repeated skin contact with the concentrate may lead to

dermatitic effects.

## 12. Ecological information

This product is biodegradable. It will not accumulate in the soil or water or cause long term problems.

### 13. Disposal considerations

Disposal Containers should be emptied as completely as practical before

disposal. If possible, recycle product and containers either in-house or send to recycle company. If this is not practical, send to a

commercial waste disposal site.

## 14. Transport Information

UN Number This product is not classified as a Dangerous Good by ADG, IATA

or IMDG/IMSBC criteria. No special transport conditions are

necessary unless required by other regulations.

# 15. Regulatory Information

AICS All of the significant ingredients in this formulation are compliant with

NICNAS regulations.

#### 16. Other information

Abbreviations

**GHS** 

AICS Australian Inventory of Chemical Substances

CAS Number Unique Chemical Abstracts Service Registry Number

EC50 Ecotoxic Concentration 50% — concentration in water which is

fatal to 50% of a test population (e.g. daphnia, fish species) Exposure Standard - The airborne concentration of a biological or

ES Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed in a work day

Globally Harmonised System of Classification and Labelling of

Chemicais

HAZCHEM Code Emergency action code of numbers and letters that provide

information to emergency services, especially fire fighters

IARC International Agency for Research on Cancer

LEL Lower Explosive Limit

LD50 Lethal Dose 50% — dose which is fatal to 50% of a test population

(usually rats).

#### Earth Renewable Dishwashing Liquid

LC50 Lethal Concentration 50% — concentration in air which is fatal to

50% of a test population (usually rats)

NICNAS
Peak Limitation
National Industrial Chemicals Notification and Assessment Scheme
Peak Exposure Value: The maximum airborne concentration of a

biological or chemical agent to which a worker may be exposed at

any time.

SDS Safety Data Sheet

STEL Short Term Exposure Limit - The maximum airborne concentration

of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not

exceeded

TWA Time Weighted Average — generally referred to ES averaged over

typical work day (usually 8 hours)

UEL Upper Explosive Limit
UN Number United Nations Number
